

**Solar power solutions
with 24/7 monitoring &
dedicated maintenance
support by Wetility.**

wetility

World class design that pays in the long run

Wetility are specialists in providing fully funded solar + battery installations for your home. Wetility's "Pay at PACE" solution is aimed at reducing your energy spend and keeping your essential appliances powered up during power outages, with no upfront capital expenditure. With zero up front costs, the "Pay at PACE" Power Purchase Agreement saves you money by purchasing cheaper power from day 1.

Benefits

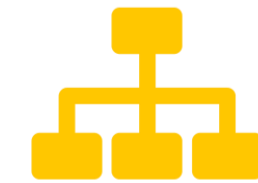

No upfront installation costs through our Pay at PACE offering.

6-8 hours of battery back up storage to power essential appliances during power outages.

Save money by purchasing cheaper power.

Energy spend tracking and future savings advisory support.

Your home, your 360 Wetility experience

Interactive digital design

With only a physical address and monthly electricity bill, Wetility intelligently designs the solar and battery backup system for your home.

The preliminary proposal will tell you how much you can save on your bill and highlights the appliances that remained powered during power outage.

System installation

Post your proposal approval, our team will install your customised solution.

The team will run a few tests before handover; including a discussion on do's and don'ts.

Post installation support

Our support team will call you to take you through how the monitoring system works; including key things to look out for based on the advice it provides on a continuous basis – including monetary savings.

Monitor and maintain

Our support team will continue to be in touch, scheduling routinised and emergency maintenance.

Our support team will also provide advisory support based on data generated from the monitoring system.

A cost effective minimalist cabinet

Wetility pre-assembles minimalist cabinets, trademarked as the **PACE**, enclosing the hybrid inverters, lithium ion batteries, and switchgear.

The cabinets will come in a **few colours** for the customer to choose from and will be free of external trunking. The PACE is supported by **We-X**, our digital interface that controls its functionality and is powered by our Rooftop PV Installations.

PACE offers a **10 year warranty** and back up power for 6-8 hours during a power outage, with **24/7 remote monitoring** service and customer support through **We-X**.

Powered by Africans with the drive to power Africa

We are a team of visionaries, entrepreneurs, engineers and financial experts who are passionate about innovative energy solutions.

We believe that we are here to harness the sun's power with purpose, introducing you to our solution that works seamlessly and in tandem with your current power options. Our dreams for Wetility are as big as yours for your lifestyle. Which is why we are uncompromising on our service, product, and delivery, employing leading innovative technologies to provide you with integrated smart energy solutions, designed to suit your needs. Our commitment to being with you along the entire journey is guaranteed, offering a meticulously **360 Wetility Experience**.

We ensure that all our solutions meet the energy permit and licensing requirements for your home.

The power purchase agreement – **Pay at PACE** – gives you the flexibility and freedom to enjoy energy at your pace without any upfront costs. Our business offers lifetime monitoring and performance improvement. And because we know productivity is paramount, we offer tailored operational and maintenance plans that allow you to keep up your pace.
